

## Sprang Lace Techniques Supply List

Sprang frame that is at least 24 inches long.

For the first class this frame should be set with a 20 inch long warp of 40 threads in 2 colors. The thread should be of such a size that you can expect to work a good 30 rows before reaching the centre. Berroco Pima 100 or Lizbeth #3 should work just fine. This warp should be a flat warp in 2 colors, alternating 4 loops of each color, that is: 4 loops of color A, 4 loops of color B, 4 loops of color A, 4 loops of color B, and 4 loops of color A.

For the 2nd and 3rd class each you will need a warp of 40 threads (20 loops) in a pale color.

Each student should also have beads, safety strings, and chopsticks, as needed to work sprang safely. Students should also have pencil and paper for taking notes, and 3 differently coloured pencils (suggested blue, green and orange) for writing out patterns. A downloadable sheet of graph paper will be supplied as part of the handouts.
