

## Supply list for Joining Tenerife Modules 1

- Lizbeth 40, or about TEX86, thread, medium to dark color to show on camera
- “Rough thread” about TEX 370.
  - Everyday string or cooking twine, 1-2 mm thick, is good.
- #24 or #26 tapestry needle, or Clover brand Huck needle
  - Comfortable for your Lizbeth 40 thread. The bent Huck needle can be nice for larger pieces.
- 30x40 cm (12”x16”) pillow, or fabric stretched on bars/hoop
  - A sturdy, flat pillow such as a Styrofoam bobbin lace cookie pillow works well. A cylindrical needle lace pillow would probably be too small and curved. A piece of basic cotton fabric on stretcher bars or a hoop works very well also. You will be pinning the individual motifs in place on this surface to work the joining stitches.
- Scissors
- Tape measure
- Tweezers
- Other usual equipment
